

UPDATES

Please send an up date to the Foster Home Group List at least once a week. Include:

- 1.How the dog is adjusting.
2. What you have been doing, example teaching the dog to sit, stay, come etc.
3. How you are socializing the dog.
4. How you are handling any medical or behavior problems that they dog may have.

If you are going to take the dog out of town please let the list know. We worry when we don't hear from you:-)

We strong request that you join the Foster Home Email List. If you don't want the daily email, you have options of:

- Join and set your choice to "digest" which means you will only get a daily digest instead of individual emails
- or
- Join and set your choice to "read from archives" which means you are a member of the list but will not receive mail. Instead you go into Yahoogroups and read the mail from the archives at your convenience.

Joining the list will give you the ability to post to the list. It will also give you the advantage of hearing the problems and solutions to problems from the other members and to ask questions of the group yourself. This is an important educational tool to make you a more productive foster home. We feel it is essential that you be a member of the groups and share with the other members so we can all learn from your experiences.

To join:

Option 1: Send an email to: MIWestieFosterHomes-subscribe@yahoogroups.com

This will generate a message to the list owner to let us know of your request. In your email, state your name so we will know who is asking to join. When we get notification we will add you.

SEE FH-0 FOR DETAILS ON THIS PROCEDURE

Option 2: We can send you an invitation to join the list. The invitation comes with instructions; however it is as simple as hitting REPLY and sending the email back to us.

Note: You must be a member of Yahoogroups. If you are not, you will need to follow the instructions to join and set up a Yahoogroups ID.
