

August 2016

Dear Foster Home,

Now that we have become an independent Corporation and considering the imminent political pressures we see coming into play, as a group we must find a way to put our organization above reproach. Some of these pressures and high standards of corporate accountability for WRMi are listed below:

- We are now an official corporation with corporate type responsibilities for recordkeeping.
- We are a 501c3 which requires a much greater level of financial accountability.
- We are registered with the State to be a registered charity which puts us in line for possible audits, both financial and non-financial.
- We have signed insurance statements that claim we have certain contracts and certain statements in contracts etc.
- We need to have documentation to defend ourselves in court in case of any dog claims. We know that organizations such as HSUS, PETA, even Michigan Pet Alliance are working in Lansing to get regulations in place. Their goal is ours (elimination of bad rescues and puppy mills) but their approach will make things very difficult for good breeders and good rescues. This isn't speculation. We are watching these efforts take place in state after state.
- Organizations such as MPA made up of Humane Societies largely, see us as competition and see enough bad rescues that they have little trust in us; they want detailed paperwork. This is similar to the government getting gangsters who commit murder, not on murder charges, but on tax evasion charges. They know that it is difficult to put a puppy mill out of business based on how they care for the dogs but they can get them on poor paperwork more effectively. Unfortunately, they can get us also.

This binder is a tool we designed to make everyone's paperwork, documentation, and record keeping as simple as possible. When you follow the Binder page by page, step by step...it will basically take care of all the things we need from you. It will require that you use the Binder requisites **"in real time"**. This way, it will take a matter of minutes to complete each phase. This is rather than trying to retrace steps and do it all at one time when you really would have trouble finding an hour to sit down and do it all at one sitting. Moreover, we never know when a dog will need to transfer to another foster home, even if temporarily. So, all of this must stay current.

This binder must stay with the dog. If the dog is moved anywhere, even temporarily, the dog's binder goes with the dog. Consider it part of their movement/transfer "gear" just like their leash and harness. This is one reason it is crucial that the binder stays current!

We have worked hard to make this new process as simple and least labor intensive as possible for all of our indispensable foster homes. Please use the binder and give it a chance to do its job. If you feel there are better ways to approach some items, please keep a list so we can discuss it and together we can make the program even better, easier, and more efficient for everyone!

We do recognize that the care of the dog should be the top priority but we must be pragmatic enough to also realize that paperwork could cause us to lose all ability to help that dog. Thank you for all you do in both areas.

Sincerely,
Beth Widdows 248-879-2479
