

Your new Westie has been eating _____ food and doing very well on it. He/She is being given _____ (amount) _____ a day (Frequency). Pick it up after 15 minutes if it isn't eaten. Don't worry if your Westie doesn't eat a meal or two and don't start adding goodies to try to tempt him. Your dog won't starve but he WILL quickly train you to give him what he wants instead of what he needs.

Westies very often have allergies and skin issues. Often a good quality food makes a big difference. We encourage you to keep your Westie on this brand of food as long as he/she is doing well on it. If you do change, please do some research on food first. One good starting point is: <http://www.westie3.fatcow.com/EDU/Nutrition.htm>. PLEASE do not choose a common grocery store brand. Westies seldom do well on these types of food. If you wish to continue with _____ brand, you will find it at

(fill in the location nearest to them by going to the web site and putting in the adopters home zip code; if it is purchased through the vet, then state that.)
