Throughout year: When you get a bad address back from mailing, note the Christmas address list and highlight the person
As year end updates are done, we will either find a good address and update or remove them from the mailing list.

Sort by last name apha (the main list but not the medical, groomers etc.)

DONORS

Compare the list and add new donors. Existing Donors update the year of the donation

Highlight first name of everyone you update

This all helps when you try to wean down the list

FOSTER MEMBERS

Compare the list and add any new foster members

Highlight

APPLICANTS

Compare the list and add any new foster members

Highlight

ADOPTERS

Go through and add all adopters for the last year; update the note in col I.

AT THE END

Go through the list and look at each that are not highlighted to decide if they should stay on the list

I highlight orange for all of the above checks and then blue for adopters and green for donors, gray if they are misc.

In this process you will delete all applicants that are no longer applicants

REMOVE

If you need to shorten the list, consider the grays and greens first. Never remove the blues or oranges.

Remove all bad addresses that you didn't have updates for and can't find.

VETS

List all vets who treated any of our dogs between 10/31 of prior year and 10/31 of this year; also update website

GROOMERS

List all groomers who groomed any of our dogs AND gave us a discount between 10/31 of last year and 10/31 of this year

Also update website

SHELTERS

Add any new shelters we may have a relationship with

VETS AND GROOMERS

Update the website "Thank you" list and use this as the basis for adding and removing. We generally mail to those who helped in the past year. But in small years we

might decide to leave them on another year.
